

Choose the revolutionary hearing aid that's best for you:
Insio C&G AX.

Key features at a glance

- Smaller, discreet design for all-day comfort
- Outstanding speech clarity
- Contactless charging
- Android³ & iPhone connectivity
- Signia Assistant

About Signia

Signia is one of the leading hearing aid brands in the world. Our goal is to enhance human performance through iconic innovations that shape the prescription audio category. We refuse to accept hearing loss as a limitation. It's not about correcting a loss, it's about gaining an edge. Not just performing, performing brilliantly. Not just hearing again, but hearing better than ever. Hearing every word, beat, and breath. With Signia, you can Be Brilliant.

Be Brilliant™

A revolutionary, rechargeable hearing aid customized to fit

Insio Charge&Go AX

The speech clarity you need, the hearing aid features you want

Our new rechargeable Insio Charge&Go AX hearing aids offer brilliant hearing discreetly custom-made for you. They are tailored to the individual shape of your ear canal to sit discreetly inside your ear. Insio C&G AX's small design gives you all-day wearing comfort, while its leading Augmented Xperience audiology platform delivers outstanding speech clarity, even in noisy situations.¹

An overwhelming 95% of participants in a recent study reported being satisfied with Augmented Xperience (AX).¹

Never miss a word

Hearing isn't always easy. A big group of people talking at the same time, softly spoken talkers, too much background noise... Sometimes sounds blend together making it impossible to focus on what you want to hear.

Augmented Xperience (AX) changes the way you hear the world. It uses our revolutionary Augmented Focus™ technology to split the sound of speech from surrounding sounds, process them separately and create a clear contrast. It then recombines them to give you outstanding speech clarity in a fully immersive environment. No more straining to discern speech from background noise.

As a result, 100% of participants in a recent study reported excellent speech understanding in their home environment.¹ Signia AX wearers also enjoy more than 25% better speech understanding in noise than with their previous hearing aids.¹

Signia AX is even proven to perform better than normal hearing in a tested party scenario.²

Contactless charging for effortless energy

These are the first custom hearing aids with contactless charging. Simply place Inzio C&G AX in the Inzio Charger without worrying about any exact charging contact, charge them while you rest or sleep, and then go – true to their name. And keep going throughout your day with up to 20 hours of use on a single charge.

Inzio Charger

You can choose between two different versions of Inzio C&G AX: one that sits in the ear (ITE) and one that sits even more discreetly in the ear canal (ITC).

Android & iPhone connectivity

Inzio C&G AX also give you state-of-the-art Bluetooth connectivity for Android³ and iOS devices. So you can easily stream your phone calls, music and TV audio straight to your custom hearing aids in high-quality digital sound. You can also connect your hearing aids to the Signia app, which features groundbreaking artificial intelligence (AI) via the Signia Assistant.

Signia Assistant

Inspired by the way the human brain's neural network solves challenges, the Signia Assistant offers immediate support whenever you need to adjust any settings.

The live deep neural network AI that drives the Signia Assistant marks a revolution in hearing care. It is a living system that continuously learns about your individual needs in specific situations. As a result, 93% of hearing aid wearers regard the Signia Assistant as a meaningful innovation that raises their satisfaction with their hearing aids in difficult listening situations. An overwhelming 87% would choose hearing aids with such an AI assistant.⁴

Compatible with Android and iOS. The app is free of charge.
