

Hearing with ease

The game-changing technology of Signia CROS AX and X devices understands your personal hearing environment in greater detail than ever to deliver sound precisely tailored to you.

Signia CROS AX and X devices wirelessly transmit sound from the unaidable ear to the ear with better hearing, so that you can follow conversations effortlessly, even when someone is speaking to you on your unaidable side.

CROS

Hearing aid receives sound via CROS on the unaidable side.

CROS wirelessly transmits sounds to good ear.

BiCROS

Hearing aid receives sound via CROS on the unaidable side. Plus, a motion sensor in select BiCROS AX and X devices ensures optimal hearing even while moving.

CROS wirelessly transmits sounds to the better ear which are amplified as needed based on individual settings.

Signia app

Through Signia's advanced app, users have access to hearing aid and CROS controls, streaming capabilities with multiple devices, care services via Signia TeleCare™, and My WellBeing activity tracking.

Signia Delivers

Signia combines industry-leading audiology and technology to deliver iconic innovations in hearing to enhance human performance. We put hearing aid wearers first, with products that fit their wants, needs and style. The wearer is at the center of our universe and their needs are woven into our DNA.

For us, this is not about correcting a loss, it's about gaining an edge. Not just performing, but performing at their best.

The information in this document contains general descriptions of the technical options available, which do not always have to be present in individual cases and are subject to change without prior notice.

CROS/BiCROS

Signia delivers sounds made just for you

Your unaidable hearing loss in one ear should not stop you from hearing what matters to you. With advanced Signia Augmented Xperience CROS/BiCROS solutions, Signia devices ensure brilliant sound so you can hear speech and environmental sound coming from both sides.

With Signia CROS AX and X hearing solutions, it is possible to hear more with a higher quality of sound. Wherever you go.

Whether you're looking for rechargeability, *Bluetooth*® streaming or a discreet design, Signia provides the optimal solutions for you.

Speech clarity without compromise Signia Augmented Xperience CROS/BiCROS

The Augmented Xperience (AX) platform introduces ear-to-ear (e2e) Wireless 4.0 which makes it easier for the brain to process speech sounds ensuring you hear clearer speech and a smoother sound experience.

AX CROS compatibility now available in levels 2AX and 1AX

AX CROS/BiCROS solutions:

- Signia app for a more personalized hearing experience
- Bluetooth streaming for Apple® and Android™ phones for calls and music plus HandsFree calls with CallControl with select iOS phones

CROS Pure 312 AX

- Long-lasting replaceable battery delivers up to 4 days of battery life
- Rocker switch for onboard controls

CROS Pure Charge&Go AX

- Convenient on-the-go rechargability for up to 29 hours of wear time
- Compatible with Signia's smallest rechargeable RIC with sleek design & optional telecoil
- Rocker switch for onboard controls

Styletto Portable Charger

CROS Styletto AX

- Award-winning design
- Portable charging with up to 20 hours of use with a single charge — and your portable case provides up to 4 additional days of hearing aid charges.

Ready-to-wear design Signia Xperience CROS/BiCROS

The Xperience (X) platform offers better speech understanding to fit your lifestyle.

CROS Silk X

The only ready-to-wear CIC available on the Signia Xperience platform delivers clearer speech understanding in an ultra-discreet size and instant-fit.

*eWindScreen only available with BiCROS fittings.

**Available in select styles and models.

†Default with Level 1AX and 2AX solutions. Available Summer 2023.
